PROFILE SUMMARY

- A recent Electronics and Telecommunication Engineering graduate (B.Tech/B.E., 2023) with strong skills in Data Structures, C, and Python. Experienced in developing embedded systems, having designed a state-of-the-art Multiple Security Access Control System to enhance security for sensitive environments. Completed a 4-week internship at Code soft, gaining expertise in Python programming and efficient algorithm development. Certified in Embedded Software and Hardware and Python Programming. Strong collaborator, with the ability to work with cross-functional teams to create data pipelines and web applications that drive business improvements.

EDUCATION HISTORY

Graduation

Course	B.Tech/B.E.(Electronics/Telecommunication)
College	Jawaharlal Nehru University (JNU)
Year of Passing	2023

Class XII

Board	Andhra Pradesh
Medium	English
Year of Passing	2019
Grade	70-74.9%

Class X

Board	Andhra Pradesh
Medium	English
Year of Passing	2017
Grade	75-79.9%

INTERNSHIPS

Vector India, 6 Months

I designed and implemented a state-of-the-art Multiple Security Access Control System, offering comprehensive protection for sensitive areas and resources within various environments. This system was developed to enhance security measures by Efficiently managing and monitoring access to restricted location.

Codesoft, 4 Weeks

A strong Python Programmer resume should emphasize the candidate's ability to develop and implement efficient algorithms and applications, showcasing their impact on business performance. Highlight collaboration with cross-functional teams, such as data scientists and developers, to create data pipelines, web applications, and APIs that drive significant improvements in key metrics like customer retention, satisfaction, and sales. Additionally, showcase your expertise in optimizing system performance, database queries, and reducing response times to demonstrate your well-rounded skill set and ability to deliver results.
